Dear Colleagues,

It is our honor and pleasure to invite you for the 25th annual CME of the International Academy of Pathology – Indian Division (IAP-ID) being organized by Metropolis Healthcare Ltd, Mumbai, India on 9th and 10th of September 2023. The **IAP – ID Silver Jubilee edition** of the 2023 Annual CME on “Current Molecular Diagnostic Practices in Clinical Oncology” shall be conducted in hybrid mode.

We moved from an era of **intuitive medicine to evidence-based medicine** and have now entered the era of **precision medicine** and precision diagnosis to enable precise therapy.

As treatment of cancer is now personalized and tailored to the molecular signature of the tumor, the outcome depends on diagnosing distinct genetic signatures of histologically signed out cancer cases. In this CME we will aim to equip pathologists with molecular oncologic pathology expertise. This session on novel diagnostic and prognostic tests will help pathologists apply their molecular oncology knowledge to traditional pathology for both solid organ tumors and hematopoietic malignancies. We have arranged both - a half-day workshop and a full day CME session for our delegates to gain as much as possible from this academic deliberation.

We look forward to your active participation in this **Precision Oncology** CME of IAP ID to glean from national and international experts.

**Dr Kirti Chadha,**  
Organizing Chairperson

Chief Scientific Officer &  
Oncopathologist,  
Metropolis Healthcare Ltd  
Councilor, International Academy  
of Pathology – Indian Division
